

# BridgeScorer Firmware Upgrade

When you download from the internet the upgrade program will be started

Otherwise start it via the Windows Start button and then  
Programs / BridgeScorer / Run BridgeScorer Firmware Update

1 On the following window click the **Browse** button

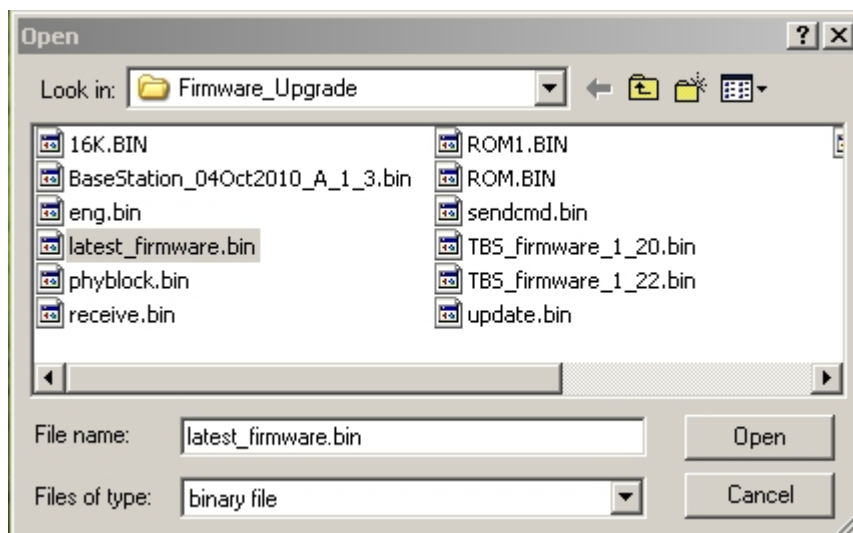

2 If you do not see a window like the one below, then use the pull down list in the 'Look in:' box to browse to the folder

**c:\Program Files\Jannersten\BridgeScorer\Firmware\_Upgrade**  
or in a 64 bit windows

- **c:\Program Files (x86)\Jannersten\BridgeScorer\Firmware\_Upgrade**

Then choose the File **latest\_firmware** and then click the Open button

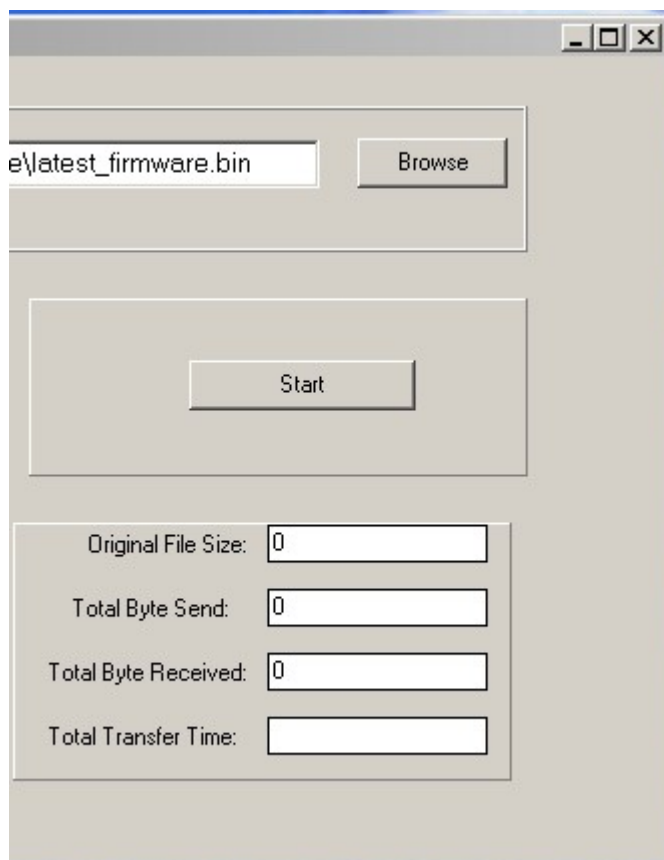

3. Take the first BridgeScorer unit to be upgraded and follow these steps

- Turn the unit on
- - Press **and hold** the ON button
- After about 5 seconds the unit will ask for a PIN.
- Press OK, (unless you have changed the value from 0000 in which case enter your value).
- Choose **ADMIN** and then **INSTALL**
- .
- The BridgeScorer should now show:

- Connect the BridgeScorer to the computer (using the base station cable) and when you hear the Windows “Beep” recognising it is connected, mouse click the Start button as on the window below

**Do not disconnect the Scorer until the welcome screen with the Start button appears**

4 Repeat Step 3 for all the BridgeScorers needing a firmware upgrade
